

PRASHANT

Product Designer | UI/UX

Delhi, India • +91-8287519160 • prashant.designux@gmail.com • [Linkedin](#) • [Portfolio](#)

PROFESSIONAL SUMMARY

Product Designer experienced in designing intuitive B2B and B2C web and mobile experiences. Skilled in UX research, user flows, wireframing, prototyping, and creating scalable product solutions with a strong problem-solving mindset. Comfortable working across design tools and AI-assisted workflows to move from research to high-fidelity, production-ready screens.

SKILLS

Design Tools: Figma, Framer, Sketch, Canva, Miro, Wireframing, Prototyping, Fig Jam.

AI Tools: Figma MCP, ChatGPT, Claude MCP, AI-assisted Design Workflows, AI Prototyping.

Motion Design: Learning, Figma Motion & Adobe after effects.

Product & UX: User Flows, UX Research, Design Systems, High-fidelity UI Screens, User Experience Design, A/B Testing.

Frontend Knowledge: HTML, CSS, JavaScript, React, Tailwind CSS.

WORK EXPERIENCE

UI/UX Designer (Contract) — *(Whuups)*

Sept 2025 – Dec 2025

- Collaborated with the Team and Delivered **30+ high-fidelity CRM and ERP screens**, applying UX research and workflow analysis to **reduce lead management task steps by 40%**.
- Created wireframes and a **scalable design system** that improved design consistency across the Whuups website, contributing to the launch of key production-ready pages: whuups.com
- Crafted 20+ wireframes** and responsive high-fidelity landing pages for IntusLab, establishing a consistent visual language across **AI, AR/VR, Blockchain, and software service offerings**: intuslab.io

UI/UX Intern — *(Mixins Technology)*

Jul 2025 – Sep 2025

- Have Created wireframes for mobile application and responsive website with **2 tailored onboarding journeys (shopkeeper and customer)**, reducing unnecessary user steps and creating a more intuitive first-time experience.
- Collaborated with the team on design for **Basketo**, a local commerce platform **serving 2 user groups**, redesigning key user flows to **improve navigation efficiency and task completion**: basketo.in

UX Researcher — *(Vislona)*

Aug 2025 – Sep 2025

- Conducted UX research for a B2B SaaS product**, mapping end-to-end user journeys and creating personas.
- Performed qualitative and quantitative research, **including usability testing and A/B testing**, to validate design decisions and improve the user experience.

KEY PROJECTS

Reqore Mail — *(Link)*

Figma • Miro • Notion • Claude • Fig jam • Prototyping

- Designed a B2B SaaS platform that **simplifies large-scale email campaigns** by making campaign creation, delivery monitoring, and failure recovery intuitive for marketing teams.
- Unified **Email Marketing, Invoicing, and Inventory Management** into a single, scalable B2B SaaS platform.
- Designed a visual **Dead Letter Queue (DLQ) dashboard** to make email delivery failures easier to monitor and **improve the delivery rate By 95%**, in Campaign Builder flow **Dropoff reduced by the 62%**.
- Created 45+ high-fidelity screens, **Iterate 12+ user flows**, and an interactive prototype demonstrating complete product workflows.

EDUCATION

B.A. (Honours), Economics — Rajdhani College, University of Delhi — Graduated: 2026

Senior Secondary (Humanities) — CBSE Board — Completed: 2021
